#Jenny

Finally I get this ebook, thanks for all these I can get now!

#Rio

Cool! I'am really happy

#Markus Jensen

I did not think that this would work, my best friend showed me this website, and it does! I get my most wanted eBook

#Hun Tsu

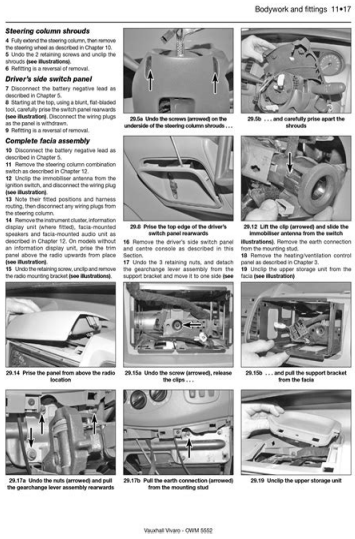
wtf this great ebook for free?!

#Che Salsa

My friends are so mad that they do not know how I have all the high quality ebook which they do not!

#Diego Butler

so many fake sites. this is the first one which worked! Many thanks



Bodywork and fittings 11•17

Steering column shrouds

4 Fully extend the steering column, then remove the steering wheel as described in Chapter 10.
5 Undo the 2 retaining screws and unclip the shrouds **(see illustrations).**
6 Refitting is a reversal of removal.

Driver's side switch panel

7 Disconnect the battery negative lead as described in Chapter 5.
8 Starting at the top, using a blunt, flat-bladed tool, carefully prise the switch panel rearwards **(see illustration).** Disconnect the wiring plugs as the panel is withdrawn.
9 Refitting is a reversal of removal.

Complete facia assembly

10 Disconnect the battery negative lead as described in Chapter 5.
11 Remove the steering column combination switch as described in Chapter 12.
12 Unclip the immobiliser antenna from the ignition switch, and disconnect the wiring plug **(see illustration).**
13 Note their fitted positions and harness routing, then disconnect any wiring plugs from the steering column.
14 Remove the instrument cluster, information display unit (where fitted), facia-mounted speakers and facia-mounted audio unit as described in Chapter 12. On models without an information display unit, prise the trim panel above the radio upwards from place **(see illustration).**
15 Undo the retaining screw, unclip and remove the radio mounting bracket **(see illustrations).**

29.5a Undo the screws (arrowed) on the underside of the steering column shrouds . . .

29.5b . . . and carefully prise apart the shrouds

29.8 Prise the top edge of the driver's switch panel rearwards

29.12 Lift the clip (arrowed) and slide the immobiliser antenna from the switch

16 Remove the driver's side switch panel and centre console as described in this Section.
17 Undo the 3 retaining nuts, and detach the gearchange lever assembly from the support bracket and move it to one side **(see illustrations).** Remove the earth connection from the mounting stud.
18 Remove the heating/ventilation control panel as described in Chapter 3.
19 Unclip the upper storage unit from the facia **(see illustration)**

29.14 Prise the panel from above the radio location

29.15a Undo the screw (arrowed), release the clips . . .

29.15b . . . and pull the support bracket from the facia

29.17a Undo the nuts (arrowed) and pull the gearchange lever assembly rearwards

29.17b Pull the earth connection (arrowed) from the mounting stud

29.19 Unclip the upper storage unit
